## ABOUT THE PRESENTER

Lori Turman's career as a teacher began in 1999 when she meshed her innate love of teaching and entertaining with her passion as a child advocate. Initially she began working as a teacher for the Choctaw Nation Head Start. Lori soon learned that her natural talent for music was a great tool for both entertaining and teaching children. She quickly became known as "Miss Lori" and began mentoring fellow teachers in how to integrate music into the curriculum, specifically teaching literacy through music.

Lori's practical experience as a classroom teacher coupled with her inventive use of music as a teaching tool rapidly made her a favorite trainer. Her trainings have included such topics as "Music and Movement," "The Importance of Music in the Classroom," "Reading and Music," and "Puppets and Flannel Boards: How to Make Books Come to Life." She has presented workshops for multiple organizations including Head Start, the Native American Head Start Directors Association, Choctaw Nation of Oklahoma, the Early Childhood Association of Oklahoma, and for the Southeastern Oklahoma Library System. Currently Lori works as the Outreach and Early Childhood Coordinator at the Oklahoma WONDERtorium, an award winning children's museum. Lori is the mother of two wonderful young ladies who are her pride and joy.
